## **GRANTS OR AWARDS**

**Richard L. Mallonee**, Music, Lima

A research grant of \$763 was awarded by the Lima Campus Research Committee to conduct a study examining junior high choir, band and orchestra students by identifying each participant's psychological learning style type using the Murphy-Meisgeier Type Indicator for Children (MMTIC). The finding will be used to develop a broad range of rehearsal techniques, musical activities and teaching methods to enable music teachers to teach to the learning style needs of all students, and not overlook the dominant mode or additional auxiliary learning needs of other students. 7/1/93
